

USB CopyNotify! Registration Tutorial.

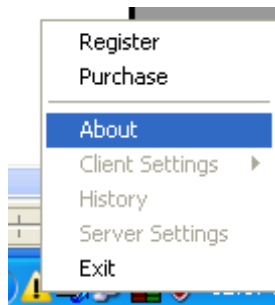

Tutorial on Registration of USB CopyNotify!

Note: When an evaluation copy of USB CopyNotify! is installed, it remains fully functional only for a period of 30 days from the date of install. After that it will cease to function.

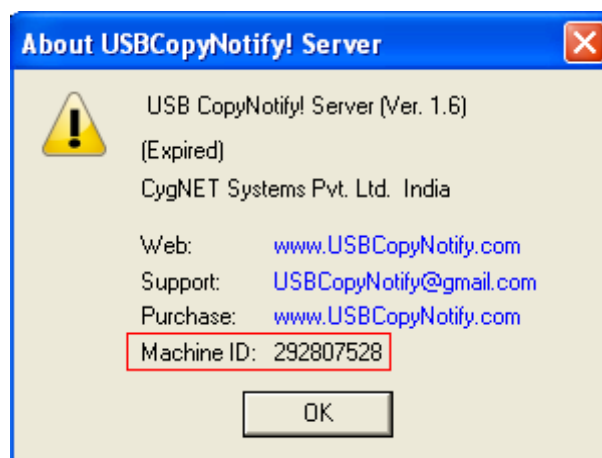

In order to re-initialize it, you will need to register the software with the required Registration Key.

Step 1

Right Click on the USB CopyNotify! Server Icon in the System Tray & Click on **About**

The following dialog box will appear

Note down the Machine ID which appears in the dialog box as shown above.

USB CopyNotify! Registration Tutorial.

Step 2

Email the **Machine ID** to the USB CopyNotify! Support staff to the following email address usbcopynotify@gmail.com or support@usbcopynotify.com

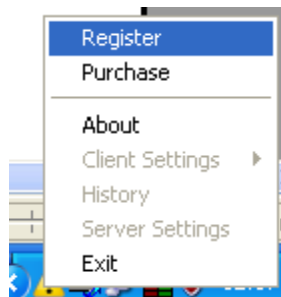

Step 3

The USB CopyNotify Support Staff will respond back to you with the following information

1. License Key
2. User Name
3. Number of Licenses

Step 4

Right Click on the USB CopyNotify!Server Icon in the System Tray & Click on **Register**

Enter **the license key, User Name & Number of License** as sent to you by the USB CopyNotify! Support Staff in the dialog box which appears after clicking on **Register**.

Register USB CopyNotify! Server
